

# THE KADER CONNECT

Week beginning: 13/09/21

Welcome to the Kader connect, Kader's weekly round up! Here we will be sharing insight into what is going on here at Kader across all year groups and celebrating our lovely children!

Thought for the weekend  
**IN A WORLD WHERE  
YOU CAN BE ANYTHING  
- BE KIND!**

## Mr Laverick's keep fit task..

Hop scotch! Can you make a hop scotch with the help of your parents and practise jumping? How many rounds can you do?

## A Poem to Ponder...

I THINK I CAN.  
I THINK I CAN.  
I THINK I CAN.  
I KNOW I CAN.

## A message from Mrs Mitchinson

Thankyou

In light of 'National teaching assistant day on Thursday 16<sup>th</sup> September, I would like to thank the wonderful teaching assistants at Kader for the fantastic attributes they bring to our school. They are an incredible part of our Kader family.

I love to win!

I was over the moon when our Kader footballers brought home their first piece of silver ware this week. Excellent work guys!

The children and I shared a giggle when I told them my favourite motto 'If you're not first you're last! 'Joking apart the children were amazing and really did represent our school well in all ways. Thank you children.

## Nursery

This week we have been thinking about our families and those we love at home. We linked this to the story 'Owl babies.' As an outdoor activity the children went on a hunt to find materials to build a nest – it was great!

## Reception

We have loved getting busy outdoors this week. Filling and pouring, running and jumping, dancing and singing! We have thrived with the interaction and team building activities. Well done Reception!

## Year 1

We have had a very busy week in year one – everyone has been working extremely hard. This week we continued our new topic 'Memory Box' by exploring and comparing modern and old toys. We even got a chance to play with some toys from the past.

## Year 4

Writing on the tables! This week it was allowed in Maths and the children loved being creative and using practical resources to deepen their understanding. Well done Year 4.

## Year 2

To start our RE topic this half term, we discussed things which were special to us. We drew pictures of our special things and made a class heart. It was lovely to listen to the children's thoughts.

## Year 5

This week we have been busy continuing our work on ancient Egypt! On Tuesday, we had a visit from Mr Egypt. We had a wonderful day learning all about life in ancient Egypt including the role of children, beliefs, work, diet, death, mummification and discoveries by archaeologists. It has been a truly interesting week!

## Year 6

This week Year 6 have been exploring numbers up to ten million. They have been using our fabulous new maths equipment to represent these numbers and have thoroughly enjoyed the competitive number games we have been playing!

In Science this week we have been investigating how important light is in order for us to see. We conducted a fascinating experiment. It was wonderful to see the children's faces literally light up when they discovered how it worked.

## Year 3

## Mrs Donalds - What made me smile!

'Genes for jeans' is a wonderful charity and it was great to fund raise as a school and all come together. Thank you all for your generosity.
