Cultural capital curriculum

Dear Parents,

We have always taught the children about our local area, with an emphasis on Middlesbrough and the wonderful opportunities our town can offer us. We often use the local area for engaging visits and encourage children to talk to us about their adventures with their families.

As part of our cultural capital curriculum, we will be asking children to continue to add to our display board in the main entrance hall.

To do this please take a photograph of your child enjoying any of the local areas that are identified on our map. Then please send it to your child's class teacher on SEESAW. Please check through your phones to see if you have any from the summer holidays to share.

We will endeavour to include as many as possible. We would particularly love to see famous, local landmarks!

We look forward to having an insight into your local adventures!

Yours sincerely,

Kader staff
