

THE KADER CONNECT

Week beginning: 17/1/2022

Welcome to the Kader connect, Kader's weekly round up! Here we will be sharing insight into what is going on here at Kader across all year groups and celebrating our lovely children!

Thought for the weekend

happy
FRIDAY
Let the WEEKEND begin!

Mr Lavenick's keep fit task..

Year 1

In Maths, we have been learning how to find a half and a quarter of a number- we then linked this to division. We began by finding a half and quarter by sharing, then we moved on to grouping.

Year 4

Following on from our experiment last week looking at the effects different liquids have on our teeth, this afternoon we have looked at the plaque that we have in our mouths after our lunch! The results were pretty interesting... some of us have learnt that we need to spend a bit longer taking a bit more care brushing our teeth!

Year 5

Another busy week here in Year 5! We have been continuing our work on fractions in Maths, looking at different sentence types in English and building on our inference, retrieval, fluency and expression skills in our reading lessons through our comprehension text - The Great Plague. In Jigsaw this week, we have enjoyed researching our dream jobs and, in our Art/DT we have begun to design our very own illuminated letters. We will be printing these later on in the term.

A Poem to Ponder...

Family

We push and pull, never letting each other
farther away than necessary
needing each other like our lungs need air
There is craziness
There are battlegrounds where lines are drawn
yet we always seem to be on the same side
Our arms linked, connected
not just through name, but a much deeper seed
that we all have taken shape and bloomed from
We are family
and no matter how hard the wind blows
or how many leaves fall
our tree remains beautiful

A message from Mrs Mitchinson

Reading I know we all say it but reading really is the key to a successful education. I have loved listening to Year 5 in their exciting and engaging reading lessons this week. Such knowledge and enthusiasm pouring from the children. They taught me a thing or two! Keep it up Year 5.

Family Like our vision states, we do feel one big family here at Kader and I can't wait until all of the children who are currently off with COVID return to school. We have missed you all.

Nursery

Our story of the week was '1, 2, 3, do the Dinosaur!'. We had some very exciting news this week in Nursery, our dinosaur egg hatched and on Wednesday, we had some very special visitors!

We were lucky enough to meet three different dinosaurs, a Triceratops, a T-Rex and a Parasaurolophus, which was the dinosaur that had hatched from our egg!

Reception

We love reading in Reception and our inviting reading areas keep enticing us in! It's amazing to see them lost in a good book – we love nothing more!

Year 2

In Year 2 we made salt dough to use in a science experiment next week. We added salt, flour and small amounts of water to get the right amount of stickiness!

Year 3

This week we have been working our little socks off practising our poetry recital of the Quangle Wangle Quee by the famous children's poet Edward Lear. We have mastered learning the first verse off by heart! You can watch our first recital on Seesaw or by scanning the QR code below!

Year 6

The children have worked so hard this week from applying for jobs on RRS Sir David Attenborough; researching the adaptations of polar animals that help them to both survive and thrive and using their observational drawing skills to sketch animals from the world's frozen kingdoms. Amazing stuff!

Mrs Donalds - What made me smile!

It's been lovely to look at all the lovely pictures of what has been happening in school this week and see what I have been missing.

I'm very nosy.

It's also lovely to see the days getting longer and the sun beginning to shine again.
