

THE KADER CONNECT

Week beginning: 28/03/22

Welcome to the Kader connect, Kader's weekly round up! Here we will be sharing insight into what is going on here at Kader across all year groups and celebrating our lovely children!

**Thought for the weekend
IS IT SUNNY OR IS IT
FROSTY? YOU
DECIDE!**

A Poem to Ponder...

Spring was the most favored time for the sun and moon because they could finally be together even if it was only for an hour or so

A message from Mrs Mitchinson

Egg-tastic!

The decorated eggs around school have been a joy to see. Although the smell is one I would rather forget, the creativity and happiness this task brought out in our children was brilliant.

Fun on the farm

It was wonderful to see our EYFS department enjoying meeting farm animals on Monday in our very own EYFS garden. The children learnt so much and thoroughly enjoyed themselves. Active/ hands on learning at its best!

Mr Lavenick's keep fit task..

Can you hop like an Easter bunny? How many hops can you do?

Nursery

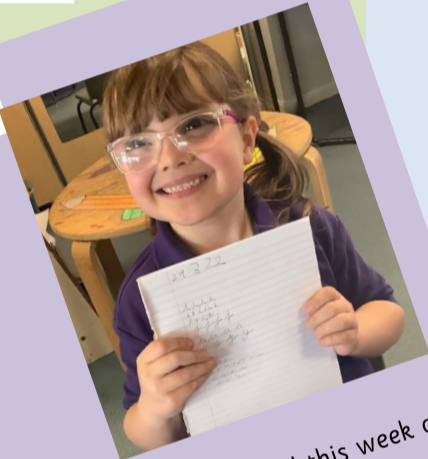

Our story of the week was 'Farmyard Hullabaloo'. This week the boys and girls had a fantastic surprise on Monday, having come to school dressed as farmers, we had a visit from 'Animals about Town, Mobile Petting Farm'. This allowed the children to have a 'hands-on' experience with some farm yard animals which included Goats. Sheep. Rabbits and Guinea Pias.

Reception

Our week started off with a visit from our farmyard friends; goats, sheep, guinea pigs and rabbits. We looked after farm animals and learnt all about what it takes to look after farm animals. We could even compare the similarities and differences between African animals and UK farm animals!

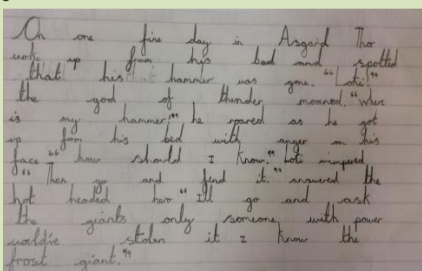

Year 1

We have been working so hard this week on our handwriting. We are learning how to join up and it makes our writing so presentable!

Year 4

This week Year 4 have been writing the story "Thor Regains his Hammer". They have worked their socks off and have been perfecting writing a dialogue of speech. We are so incredibly proud of all of their writing. Keep up the wonderful work Year 4!

Year 2

As part of our Little People, Big Dreams topic we have been learning about lots of significant people from History. This week we learned about Malala Yousafzi and sequenced the events of her life so far. So very interesting!

Year 3

We have been studying types of weather that we could encounter if we were stranded in the rainforest. We looked at thunderstorms and cyclones and created our own in class. We then looked at what type of shelter tribes in the rainforest would need to protect

Year 5

In our topic lessons we have been looking at compass points and in Science, we have been learning about separating mixtures. On Wednesday, the children were given the challenge to separate different mixtures using sieving, filtration and magnetism – they did an absolutely marvellous job!

Year 6

As part of our ID and Evolution science topic, we focused on inherited and environmental characteristics. We had a fantastic and detailed discussion as to where we would place each characteristic.

Mrs Donalds - What made me smile!

Our wonderful EYFS children became farmers this week and I couldn't stop laughing at their enthusiasm walking the sheep around the outdoor area! They were so lucky to take part in real farm jobs, learning so much in a fun and engaging way.
