

The Kader Connect

Week beginning: 16/05/22

Thought for the weekend:

Smile, it makes you feel good.

A poem to ponder:

Mathematics

- Marvelous multiplication
- Alluring arithmetics
- Tantalizing tangrams
- Hypnotizing hypotenuses
- Enticing equations
- Mesmerizing monomials
- Amazing Angles
- Thrilling trigonometry
- Inventive inequalities
- Creative coordinates
- Sassy sums

Nursery:

Our story of the week was 'Maisy Goes Camping'. This week in Nursery has been camping themed. Activities have ranged from finding sticks for their own campfire, building their own tents, using lots of paint to create a fire and cooking their own marshmallows! We also carried out a small science investigation all about shadows. The boys and girls spoke about how shadows appeared and what happens to shadows when objects get closer/further away from light.

A message from Mrs Mitchinson:

I have been over the moon with the Year 2 children this week and although we are still finishing off, a little Friday treat of ice cream really brightened the week. Keep going! You are amazing.

Year 4:

To celebrate national numeracy day this week year 4 completed some really difficult maths challenges! It was great fun! In our computing lessons we have been working on our photo editing skills as part of our computing lessons. We have learnt how to adjust the brightness, hue and saturation. Keep your eyes peeled to see what master pieces we create by the end of this unit!

MR LAVERICK'S KEEP FIT TASK:

Year 1:

This week in English, we imagined that we were Beegu and wrote a letter to mum and dad, detailing where we are and what had happened to us. On Tuesday, we found synonyms for 'big', 'small', 'nice', 'sad' and 'scared'. We discussed how certain words add more power and excitement to our work. On Wednesday and Thursday, we wrote a description of an imaginary planet. We used our powerful word bank to create a lively description.

Rec:

This week in Reception we have started our new story Jasper's Beanstalk in preparation for our big write next week. We have experimented in Science by planting a bean on a wet paper towel and taped to a window to soak up the sun. In Maths we have been practising addition, learning the symbols and how to write number sentences.

Year 5:

As part of our activities on National Numeracy day, the Year 6 children took part in a Guinness World Record for the largest group of people 'rolling numbers'. Well done Year 6!

Year 2:

Year 6:

As part of our activities on National Numeracy day, the Year 6 children took part in a Guinness World Record for the largest group of people 'rolling numbers'. Well done Year 6!

Year 3:

This week we have been showing off our story writing skills by writing a story based on the Disney short Lava. It is a story about a lonely volcano looking for love and we have absolutely loved writing all about it. On Wednesday, for National Numeracy Day, we looked at jobs that we would like have when we grow up that use numbers. We came up with an enormous list of skills needed for each job and using numbers was in almost every one!

Mrs Donald - What made me smile!

I really enjoyed National Numeracy day. It was wonderful to see so many children enjoying maths and engaging in so many interesting and fun activities.
